

Python + JavaScript Daily Learning Plan (4 Weeks)

This is a 4-week structured learning plan for mastering Python and JavaScript side by side, with daily tasks and a project-based weekend structure.

Week 1: Python & JS Foundations

Day	Python Focus	JavaScript Focus	Folder / Task
1	Print, Comments, Variables	Console.log, let/const	day01_variables/
2	Data Types (int, str, float)	Primitives (number, string)	day02_data_types/
3	String Operations	String Methods	day03_strings/
4	Numbers & Arithmetic	Math Operators	day04_arithmetic/
5	Comparison Operators	Comparison (===, !==)	day05_comparisons/
6	Review	Review	Practice & Bug Fix
7	Project	Bio Card CLI Project	day07_bio_card/

Week 2: Logic, Conditionals, Functions

Day	Python Focus	JavaScript Focus	Task / Folder
8	Nested if/else	Nested if/else	day08_nested_conditionals/
9	Boolean Logic	Boolean Logic	day09_boolean_logic/
10	input(), type casting	prompt(), conversions	day10_user_input/

11	Built-in functions	Math, parseInt	day11_builtin_functions/
12	Parameters + Return	Function Params & Return	day12_function_parameters/
13	Review	Review	Revisit Topics
14	Project	Student Report Generator	day13_student_report/

Week 3: Loops, Lists, Iteration

Day	Python Focus	JavaScript Focus	Task / Folder
15	for loops	for, for...of loops	day14_for_loops/
16	while loops	while loop	day15_while_loops/
17	List basics	Arrays: push/pop	day16_list_array_methods/
18	Looping through lists	Loop arrays	day17_looping_lists/
19	break, continue	break, continue	day18_break_continue/
20	Review	Review	Revise + Practice
21	Project	ATM Simulator	day19_atm_simulator/

Week 4: Dictionaries, Objects, Modules

Day	Python Focus	JavaScript Focus	Task / Folder
22	Dictionaries	Objects	day20_dict_objects/
23	Add/Update Dict	Update Object	day21_dict_update/
24	Nesting Dict/List	Nested Obj/Array	day22_nesting/
25	Return Dict from Function	Return Object	day23_return_dict/

26	import, Modules	import, Modules	day24_modules_intro/
27	Review	Review	Refactor Code
28	Project	Contact Book	day25_contact_book/

Folder Structure

```
python-js-daily-streak/
├─ day01_variables/
│   ├─ hello.py
│   └─ hello.js
...
├─ day25_contact_book/
│   ├─ contacts.py
│   └─ contacts.js
```

README Template

```
# Python + JavaScript Daily Streak
```

```
##      Goal
```

```
Learn Python and JavaScript side by side in 4 weeks, with real project
```

```
##      Progress Tracker
```

- Week 1
- Week 2
- Week 3
- Week 4

```
##      Folder Guide
```

```
Each folder (day01, day02, ...) contains both `.py` and `.js` versions
```

```
##      Tips
```

- Commit every day to build consistency.

- Reflect with comments in your code.
- Ask for help when stuck!

Let's Go!
